Toulouse & Miss Piggy (now Patty) Check In

"As you can see, they are finally sitting near each other. Only took three years!"

Happy Holidays from Ralph!

George doing fantastic!

"George has settled in WONDERFULLY. He immediately took a liking to my other cat, Bon Bon (also from PAWS). His favorite spots to hang out are on the stairs, on the couch and most recently, he discovered the comfy spot in my nook while I sleep in bed. Total mush ball! He loves to gallop around the apartment randomly and waits outside of the bathroom for me.

He follows me around like a dog! He's just perfect. He loves giving head bonks and rubs up against face. I couldn't be happier.

He also loves his new mouse toy! Here are some pictures of our baby. Thank you for taking care of George before he came home with me. I love him so much and I feel such joy when I'm with him (and my Bon Bon!)

Did you know?

Lions can weigh up to 550 lbs but tigers are heavier, weighing up to 800 lbs!

We need bags with handles!

If you have any paper or shopping type bags you are not using, we can! We send home a goody bag for every adoption and the bags are really handy. Thanks!

Spencer, now a lap cat!

"Spencer has certainly settled in far better than I ever expected. He's become the lap cat I never thought he would be. He's still a little weird if I'm walking around and we run into each other, he runs away from me but any time I'm in my bed or on the couch he's in my lap!"

Max Loves to Snuggle!

"He is the sweetest boy and everyone in our family is charmed by him!"

Happy Holidays from Ava!

Adorable Ava was adopted by Kevin and Tracy a couple years ago and is doing a great job guarding the tree!

Sugar (now Tigger) Right at Home

Cuddles is Doing Great!

The nice woman Irene who adopted her the third time has called me almost every single day since Cuddles went home. She gallops down the hall from bedroom to kitchen for food, has explored the entire house and sits in the living room with Irene watching TV!

Bunny & Mindy Report!

"I would say they are settling in nicely :-). They continue to find new places to curl up, like the guest room; but they keep coming back to some of their favorites, like in front of the fireplace.

We're all working on our interpersonal relationships. Still no petting, but I was super excited to have them both on the couch with me at the same time (albeit only briefly). We have also been playing in the mornings.

Bunny is very agile. He is definitely the more active and vocal of the two (I have taken to calling him Mork, but I am not officially changing his name :-).

Happy Holidays to all!"

Remember Monkey & Harley?

"Wanted to give you a positive update. We opened the door permanently and have noticed a reduction of aggression towards Oliver. In fact, the timid tortie seems to be fond of Oliver. She follows him everywhere and lays with him. Monkey tends to not interact as much with him but doesn't seem to mind his presence. Not sure if it is the Feliway or if they have all just adjusted finally."

Adorable Chaz (now Dasher) says Hi!

He loves to lay in his bed in front of the fireplace!

Crowe is a Happy Kitty

Mango is a Sweetheart; always purrs

Carson is finally good friends with his new kitty brother!

Cleo getting comfortable at home

“She's found some favorite spots to hang out, loves playing with her toys and chasing her catnip mouse around the apartment.”

Happy Holidays!

Al and Cee Cee are Both Doing Great!

“They run and play together and when Cee Cee gets out of hand, Al will bop her on the head and then give her a butterfly kiss! He inter-acts with all 3 adults in the home. We are very happy having both of them!”

Elvira and Agatha are happy girls!

“They're very active and zooming all over the apartment. As of a few days ago they officially got big enough to jump on the kitchen counter so now we'll have to actually put away our leftovers!”

Kate's Adorable Crew!

Paws alumni, Charmaine and Layla get along great and are amazing!
